

Pettingill Park Update:

There are some exciting things happening at Pettingill Park. At town meeting in April, our community voted to allot funds to repave the upper lots at the park to convert them into a pickleball court and full-sized basketball court. Soon after, we received a very generous donation from town residents to see this project through to completion. We have signed agreements with Advantage Tennis to have the work done to complete the new pickleball court, the basketball court and to repair our existing tennis court with overlapping lines for two additional pickleball courts late this fall or early next spring. We would like to thank the towns folk for voting to support the start of this project and to the generous support of our community members who allowed this project to come together so quickly. Thank you!
